

## THORWALD THE FAVORED ONE

Is Appointed Transfer Clerk at the Rio Grande Depot.

## SHORT LINE'S NEW CARD

DR. DRAKE PROMOTED—CITIZENS WITHDRAW PROTEST.

A new time card, which went into effect on the Oregon Short Line at midnight, is important to the citizens of Salt Lake, although it will not affect the leaving time of local trains. Hereafter, the train will leave for Ogden at 12:45 instead of 11:35 p. m., as formerly. The train from Nephi now gets here five minutes earlier and connects with the Atlantic express for Ogden and the east. The new schedule will give passengers about fifteen minutes more time to reach the station. The Ogden train leaves at 5:05 p. m. A supplement is incorporated in the card showing that No. 9 will arrive at Salt Lake at 4:40 instead of 5:05 p. m., as formerly. This brings the train into the station ten minutes before the departure of No. 8 for the south. No. 9 will leave here upon the old schedule, but will make up much of the difference at Salt Lake where it formerly stopped for dinner. Under the new schedule it will stop only long enough to take on passengers.

It is not known when Mr. Thorwald will assume the duties of his new office. He is not expected here before the end of the month. It is understood that one of the relief clerks will be taken from one of the trains and placed at the Rio Grande depot, where Ernest Atkins, a postal clerk, who has been making short runs out of this city, is considered a very efficient employee.

## HONORS FOR MR. DRAKE

Appointed District Passenger Agent of the Rock Island.

Higher honors, more authority and an increase of pay are some of the honors that go with a promotion which was announced yesterday in the Rock Island office. The recipient of all these favors is E. Drake, traveling agent for the system in this city. Mr. Drake has been appointed district general agent of the passenger department, with jurisdiction over Utah, Idaho, Nevada and Montana. A supply of stationery with his name and new title neatly printed on the paper was mailed at the local office yesterday morning, and this was the first public knowledge of the change.

The title simply confers on Mr. Drake additional honors and authority. He will continue to look after the northern passenger interests of the system, while Mr. Townsend will continue to look after the passenger interests on the eastern branches of the system. Mr. Drake, however, will have entire charge of the two departments. His friends and associates are much pleased with his promotion and entirely deserved.

Mr. Drake has been in the employ of the road for about eleven years and is formerly station agent at Ogden, Kan., where he filled the duties of district passenger agent, although the title at that time was greater than the one of the traveling passenger agent at the present time. He came here about a year ago.

## PROTEST WAS WITHDRAWN

Expected That the County Commissioners Will Grant Franchise.

It is believed that before another forty-eight hours, the Utah & Salt Lake Valley railroad will have a franchise to extend its lines to the city. The county commissioners held a long session yesterday afternoon and the question was discussed at length, but final action was deferred until Monday afternoon. Sentiment seems to be in favor of the franchise and it is probable that the petition will be granted. The franchise is for the proposed extension of the line from the city limits to the Brigham Junction via the Redwood road.

The commissioners also entertained a protest against the \$10,000 bond exacted from the Salt Lake & Suburban Railroad company. The protest was entered by a committee of citizens who want to see the road go through. The towns interested in the proposed road fear that if the bond is too high the road will not be built. It was explained that the bond did not demand the construction of the entire road in the year limit. It merely guarantees the completion of one-third of the road in the time specified. The committee withdrew its protest when the nature of the bond was explained.

The committee consisted of Justice F. F. Heitz of Big Cottonwood, R. Knudson and James Nielson of Holladay and W. W. Wilson of Sandy.

## KANSAS POTATO CROP

Santa Fe Rates Will Not Interfere With the Utah Market.

The Santa Fe made another reduction yesterday in its freight rates, but it is not likely to occasion much commotion in this immediate vicinity. It is in line with what was said Saturday regarding the freight department of the road. A sharp cut was made yesterday in the potato freight rates, and emergency rates of 35 cents per 100 pounds being introduced. This will have no effect on the local potato market, as it is done in the spirit of local enterprise to help out Kansas.

The Kansas potato crop is now ready for shipment into Texas, its largest customer. In spite of the rains the crop is said to be something enormous this year, but, fortunately for Utah, the Kansas potato has to find a quick market, as it is not a good keeper.

An extraordinary crop this year, but the Kansas potato will be out of the way before the local crop is ready for the market. The Santa Fe reduces the rate from 34 cents to 35 cents.

## FASTER WORK PROMISED

San Pedro Delays Will Be Overcome and Better Progress Made.

Senator W. A. Clark is on his way to Jerome, Ariz. He has been looking after his interests in Los Angeles and before his departure said that he was pleased with the work that has been done on the San Pedro, Los Angeles & San Pedro Delays Will Be Overcome and Better Progress Made.

Senator W. A. Clark is on his way to Jerome, Ariz. He has been looking after his interests in Los Angeles and before his departure said that he was pleased with the work that has been done on the San Pedro, Los Angeles & San Pedro Delays Will Be Overcome and Better Progress Made.

Salt Lake road. He told a reporter that he had no future plans to announce. The senator has gone over his lines from the Pacific to the Atlantic and he has found the work highly satisfactory. He regretted that so many delays have occurred, but there is every promise now that the work will move ahead.

He is interested in the quality of the road he is building and feels that no other transcontinental road built its first lines with as much care as he insists upon. Senator Clark expects to spend several days looking after his copper mining interests there and from Jerome will go to Butte, Mont.

## NEW TIME CARD

Short Line Makes Improvements, But No Important Local Changes.

A new time card, which went into effect on the Oregon Short Line at midnight, is important to the citizens of Salt Lake, although it will not affect the leaving time of local trains. Hereafter, the train will leave for Ogden at 12:45 instead of 11:35 p. m., as formerly. The train from Nephi now gets here five minutes earlier and connects with the Atlantic express for Ogden and the east. The new schedule will give passengers about fifteen minutes more time to reach the station. The Ogden train leaves at 5:05 p. m. A supplement is incorporated in the card showing that No. 9 will arrive at Salt Lake at 4:40 instead of 5:05 p. m., as formerly. This brings the train into the station ten minutes before the departure of No. 8 for the south. No. 9 will leave here upon the old schedule, but will make up much of the difference at Salt Lake where it formerly stopped for dinner. Under the new schedule it will stop only long enough to take on passengers.

## OLD GUARD COMING

New York's Swell Politico-Military Organization Will Travel.

Salt Lake may prepare to entertain some swell visitors in May. It is probable that the Old Guard of New York will pay the city a visit some time during the month. Anyone who has ever lived in the far east is aware of the fact that the Old Guard is a formidable organization of the organization means that the city is lucky enough to get invitations travel 500 miles to attend the annual ball given by the members, usually during January. It is really a state affair, and swiftness is expected to attend the invitations have been received.

While its roster includes the military nobles of the state, prominent politicians and social leaders of the metropolis are found upon the membership roll. The guard is not yet positive whether it will go west or east. There is some talk of a trip to Europe, but the fact that western roads are being consulted regarding rates for well accommodations leads local officials to believe that the plan is to go to the coast, take in Salt Lake, Yellowstone park and other points of interest.

## SWAMP THE SHORT LINE

Travel to the Yellowstone Park Reaches High Water Mark.

In its history it is doubtful if the Oregon Short Line has ever handled such immense travel to the Yellowstone park as the present season. The regular traffic was already out of all proportions, but the Elks' convention and the coming of the Pythian Knights at San Francisco has taxed the capacity of the Short Line service. Yesterday the pressure was beyond the accommodations of the road, and passengers were advised to wait over. The road could not take care of the rush, which was unprecedented, although it has been carrying extra coaches. Excursions to Ogden, Boise, Butte, San Francisco, Soda Springs and other points, have not tended to relieve the congestion.

## REDUCING HEAVY GRADES

Engineers Making New Survey Between Devil's Gate and Ogden.

Ogden, Aug. 16.—For more than a week a party of eleven Union Pacific engineers has been located at Utah. The party is engaged in making a new survey for a change of line from Devil's Gate, in Weber canyon, through Ogden to Ogden. The purpose of the survey is to cut out the heavy grades on Ogden and the Salt Lake hills. The proposed new line passes a quarter of a mile north of the present route and skirts the base of the sand hills between Ogden and the city. It is understood that there will also be considerable rock work in Weber canyon. A preliminary survey was made about a year ago and the line is now being definitely established. The construction work will be commenced in a few months.

## Personal Mention.

A. O. Bottleson has returned to Pocatello. Edward Gove and his son Walter have returned from the east. H. B. Clawson and family have returned from Odell's cabin at Brighton. Miss Laura Townsend of Park City is in the city, a guest of her cousin, Miss Mabel Hunt. R. R. Haves of the Laced House will leave this morning on an extended eastern trip for the firm. Mrs. J. A. Graham and daughters left yesterday for Pacific Grove, Cal., to spend the winter. Mrs. Arthur Bailey has returned to Ogden after a week's visit with Miss Myron of Salt Lake. Miss Purcell of Walker Bros. dress-making department goes east this evening. She will return Sept. 1. Walter S. Ashby of Colorado Springs, Colo., is visiting his sisters, Mrs. J. M. Murray and Mrs. Edna Murray. Miss Rosa Brown has returned from a three months' visit to friends and relatives at Portland and Falls City, Ore. Angus K. Nicholson is down from Mad. Ida, where he is doing a rushing business as agent of a life insurance company of New York. M. L. Fuller of Storm Lake, Ia., who was recently appointed as assistant weather observer at Salt Lake, arrived and took charge of his position yesterday. Mrs. H. C. Knill and Mr. and Mrs. E. L. Lindgren have been visiting Mr. and Mrs. S. B. Tuttle for a couple of weeks, have returned to their homes in Chicago, Ill. Aaron Smalley, a brother of W. E. Smalley of this city and owner of the Macle Hollow stock farm in the northern country, Kentucky, spent the past week in the city with his brother. Miss Mary, daughter of Mrs. Amasa Perrod of Provo, and Miles Davis, a well known young merchant of the same city, were yesterday quietly married in the city and county building by Deputy Clerk Emery. Horace E. Jackson is spending a week in this city visiting the friends of his youth, after an absence of many years in San Francisco and Oakland. Mrs. Jackson accompanies him, and both are delighted with their visit with many old friends and relatives. Until Tuesday they will be guests of Mr. and Mrs. Dunn, 119 B street. Heber Cutler of Lehi and Clarence Miller of this city surprised their immediate relatives yesterday by returning from Germany, where they went several months ago to learn the expert profession of making sugar from beets. It was the expectation that the two young men would meet General Manager C. L. Culver of the Utah Sugar company in New York, but they failed to see him. The younger Mr. Cutler will enter the laboratory of the factory at Lehi, and Mr. Miller will probably similarly engage himself.

## NEW PERILS IN WATER SUPPLY

Pumped Flow in Canal Cut Off to Embarrass the City.

## COURT CONTEMPT INVOKED

INCREASING DISTRESS FROM LACK OF SUPPLY IN PIPES.

YESTERDAY passed without bringing any promise of early relief from the city's distress on account of the water shortage. Rather, the situation became more complex and attended with greater aggravations. As if to make the burden more weighty, the flow into the city canal which came from the pumping operations at the outlet of Utah lake, was cut off and will remain off until the municipal administration concludes negotiations with the operators of the pumps for the share of the pumped water. The effect of this move will be to make it well-nigh impossible for the city to re-take the flow of water from the canyon creek for the pipe distributing system under the contract of exchange with the "farmers" south of town.

Another unlooked-for and unwelcome aspect was the effort of the complaining residents of Sugar and Farmers' wards to have Waterworks Superintendent Hines and Land and Water Commissioner Fisher cited for contempt for violating the injunction against the city granting a week ago to acquire the right of standing still to run in its natural channel instead of intake of the city conduit, instead of supplying the town's pipe system.

## Grounds for Contempt.

The application for the citation will recite that the two city officials have diverted water into the ditch on the ranch lands up the canyon, which were purchased at great cost, to protect and increase the city's water supply. Although this diversion, temporary in character, has been the custom for years, it is a violation of the injunction. The city is now set up to a measurement to be taken of the canyon flow at the mouth to determine the basis of exchange with the "farmers," the latter, it is claimed, prior claim to the water rights bought by the city, and further plead that the municipality has violated the exchange contract of long standing by not letting their rights far up in the canyon.

It is expected that the contempt citation against the city's officials for alleged violation of the court's restraining order will be placed before one of the district judges on Monday for consideration. One of the chief effects will be to delay the determination of the basis upon which the canyon water can be retaken by the city in exchange for an equivalent of canal water. The commissioners having jurisdiction over the measurements will meet in adjourned session at 7 this evening, upon the return of State Engineer Doremus to town but there is no assurance that an agreement will be reached unless Commissioner Fisher abandons the practice of deducting the water bought by the city from the canyon ranches, and the stream at the canyon outlet is measured. In any event, this feature of the controversy is likely to reach the courts for adjudication, and in the meantime the city will continue to suffer for water.

## City Officials Bewildered.

Despite the fact that the water situation became more distressing yesterday and that new complications toward relief appeared, neither the mayor nor any member of the council, in their dilemma, seemed inclined to urge the calling of a special meeting to speed the negotiations for a share of the take-pumped waters. The terms offered by Presidents A. M. Cannon, Fitzgerald and Seddon of the canal companies which installed the pumps are deemed unreasonable by Mayor Thompson, City Engineer Kealey and City Attorney Nye, and the latter declared that he would not stand for what seemed to him to be a scheme to hold up the city.

The matter will be considered by the council Monday evening, but it is regarded that Judge Morse will have to be appealed to to fix the price at which the city can secure its share of the pumped flow for the canal, pending the termination of the injunction suit against the city to restrict it from joining in the pumping scheme.

There was talk yesterday among the city officials that if the municipality were to be held up and by similar outwitted influences prevented from getting back the flow of Parley's creek for the pipes, it would be worth the effort to have the canal companies enjoined from operating the pumps.

## What the People Are Saying.

While the people are in distress for water, they are not failing to recall the pledges made to them by Mayor Thompson and the former city council that if \$250,000 in bonds were voted the money would be judiciously expended to increase the city's water supply. The bond money has been spent, \$145,000 to a favored contractor for laying pipes, \$60,000 for purchase of water rights of doubtful title in Parley's canyon, \$35,000 for a distributing reservoir and \$10,000 for work done at Utah lake's storage reservoir. The water rights of doubtful title in Parley's canyon, \$35,000 for a distributing reservoir and \$10,000 for work done at Utah lake's storage reservoir. The water rights of doubtful title in Parley's canyon, \$35,000 for a distributing reservoir and \$10,000 for work done at Utah lake's storage reservoir.

It was not until yesterday that the people of Salt Lake of the town from the dire distress of the town from the water famine. None of the streets had been sprinkled for several days, and the clouds of dust surging everywhere made the atmosphere extremely hazy. It was literally sickening, as Health Commissioner Kirk remarked, such conditions would soon breed a vast amount of sickness from contagious diseases. Every merchant and every housewife muttered their disgust at the deplorable situation which had brought untold discomforts and danger.

Water for lawn sprinkling is difficult to get, and only at intervals during the day and night can a flow be obtained through the pipes for the domestic purposes and for flushing sewer connections. The determination of the city officials to keep a small supply in reserve in the reservoir for protection against fire appears to be the only solution, but this is done by drawing heavily on the City creek main from the high line and closing down the outlet valves.

"I had diabetes in its worst form," writes Marion Lee of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man." Johnson-Pratt Drug Co.

## Mullett's Clothing Store.

Clean-up hat sale. Friday and Saturday, Aug. 22 and 23. Your choice AT \$1.00 EACH from one thousand hats; regular price, \$1.50 to \$4.00. See show windows.

GEORGE MULLETT & CO.  
Grand Ball at Saltair  
Monday afternoon and evening, under the management of Christensen's Dancing academy.

## NEW FIELD ARTILLERY

Herr Erhardt's Patent Has Been Adopted by the United States as the Best in Use.

Berlin, Aug. 16.—The United States war department has bought of Herr Erhardt, a gun-maker of Dusseldorf, the right to re-arm the American field artillery with Herr Erhardt's new piece, Captain Henry D. Borup of the United States ordnance department is now at Dusseldorf on this business, probably to learn thoroughly how the gun is constructed. Residing his large works situated near Herr Erhardt has a branch at Essen. He sold to the British government several hundred pieces after experience in South Africa had demonstrated the inferiority of the British artillery.

The gun which the United States has acquired the right to use is understood to be an improvement on the model supplied to Great Britain, being lighter and of longer range. The United States ordnance officers have long complained that their field gun was less effective than the French and German guns. The United States ordnance department learned some time ago that the Krupp had a new light model, and they were invited to exhibit the piece to United States ordnance experts, but the Krupps declined, giving as their reason that if they demonstrated that they had the best piece in the world there was no certainty that the United States would take it. Herr Krupp recently made a gun of exactly the same bore as a certain best American type, but considerably lighter, and tested it a few days ago, throwing shrapnel effectively 6,000 yards, against the American gun's 2,900 yards.

Herr Erhardt established five years ago a branch at Pittsburgh, Pa., for the manufacture of certain cartridges and shells, but, being unprofitable, it was closed, and he brought the machinery back to Germany.

Captain Borup is remembered among foreign ordnance officers as formerly attached to the Paris embassy of the United States, and as having been recalled on an intimation of the French government that such a step would be desirable, this being due to his unusual success in penetrating military secrets.

Many persons in this community are suffering from kidney complaint who could avoid fatal results by using Foley's Kidney Cure. Johnson-Pratt Drug Co.

## Did Not Resume.

Wilkes-Barre, Pa., Aug. 16.—It was expected that the Warnick washery at Duryea would resume operations today, but none of the employees reported for work.

## CATARRH

The treatment of Catarrh with antiseptic and astringent washes, lotions, salves, medicated tobacco and cigarettes or any external or local application, is just as senseless as would be kindling a fire on top of the pot to make it boil. True, these give temporary relief, but the cavities and passages of the head and the bronchial tubes soon fill up again with mucus.

Taking cold is the first step towards Catarrh, for it checks perspiration, and the poisonous acids and vapors which should pass off through the skin, are thrown back upon the mucous membrane or inner skin, producing inflammation and excessive flow of mucus, much of which is absorbed into the blood, and through the circulation reaches every part of the system, involving the Stomach, Kidneys and other parts of the body. When the disease assumes the dry form, the breath becomes exceedingly foul, blinding headaches are frequent, the eyes red, hearing affected and a constant ringing in the ears. No remedy that does not reach the polluted blood can cure Catarrh. S. S. S. expels from the circulation all offensive matter and when rich, pure blood is again coursing through the body the mucous membranes become healthy and the skin active, all the disagreeable, painful symptoms disappear, and a permanent, thorough cure is effected. S. S. S. being a strictly vegetable blood purifier does not derange the Stomach and digestion, but the appetite and general health rapidly improve under its tonic effects. Write us about your case and get the best medical advice free. Book on blood and skin diseases sent on application.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

## HONOR TO STRONG MEN.

To feel young again! To realize the joyous sparkle of nerve life as it infuses the body with its glowing vitality; to feel the magnetic enthusiasm of youthful energy; to be happy, light-hearted and full of joyous impulses; to be free from spells of despondency, from brain-weakness, from the dull, stupid feeling; to have confidence, self-esteem and the admiration of men and women! Such is the wish of the broken-down man and it may be gratified.

## Weak Men Can Be Cured.

Men who are "only half men" can be made the most perfect specimens of physical manhood by wearing Dr. McLaughlin's Electric Belt. It is worn for six or eight hours daily, mostly during sleep. It pours a glowing stream of electric energy into the weakened nerves and organs, filling them with the vigor of youth. From the first day a new spirit is felt in the veins, the joyous ambition of youth springs forth, and you are a man among men.

## Dr. McLaughlin's Electric Belt

Has made thousands of homes happy. It is as good for women as for men. Man and wife can use the same Belt. The weak man makes it strong or mild to suit the wearer. It is the only Electric Belt in the world that can be regulated while on the body. You feel the power, but it does not burn and blister as do the old-style hard metal electric belts.

## FREE BOOK

I want you to call if you can and test it free. If you can't wait \$100 to any weak man. Sent free, closely sealed.

CAUTION: Beware of medical con-men offering "Electric belts free," and to foist a package of medicines upon you. C. O. D. Write to me for an explanation of the trick.

## Dr. M. B. McLAUGHLIN, 931 16th St.

NEVER SOLD BY DRUG STORES OR AGENTS.

## Dr. M. B. McLAUGHLIN, 931 16th St.

NEVER SOLD BY DRUG STORES OR AGENTS.

# \$5-A MONTH-\$5

## Hundreds Are Cured In One Month.

NO MATTER how complicated your case may be, no matter how many ailments you may have, no matter if a dozen Doctors (?) have treated you and failed--this special offer enables you to be treated and cured for the low rate of \$5 a month, all medicines and office treatment free, if you apply before Sept. 1st.

## Don't Wait--Apply Now.

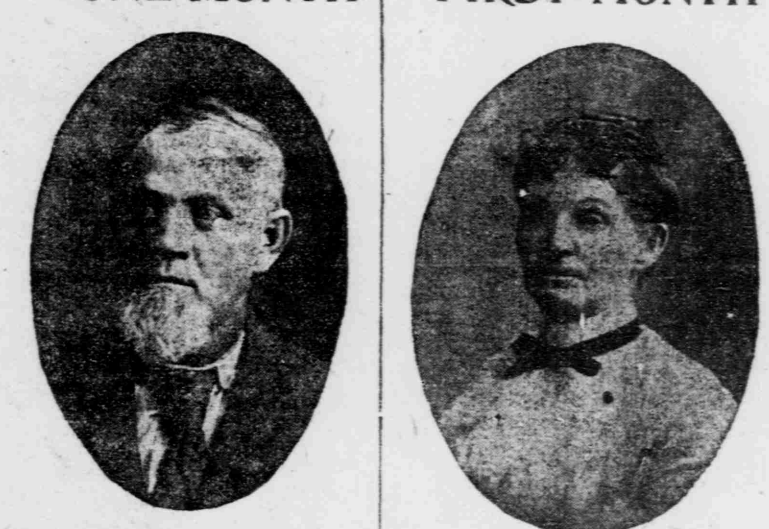

Don't wait until your case has become incurable, don't put off from day to day the duty you owe yourself, but come (or write) Drs. Shores & Shores and begin your treatment under this low rate, and it will hold good every month until you are permanently cured, if you begin treatment during August.

## OTHER DOCTORS GIVE YOU "THEORIES"--

## DRS. SHORES GIVE YOU "RESULTS."

Read the testimonials of these home people who have tried the treatment and know whereof they speak:

## CURED IN ONE MONTH. RELIEF THE FIRST MONTH

J. E. STEVENS. 255 Valeria Ave., Salt Lake City. Mr. Stevens says: "I have been a resident of Salt Lake for the past eleven years. I have always been stout and rugged until the latter part of last June, when I was taken suddenly with a severe pain across the stomach, that almost doubled me up. My appetite failed, I became very dizzy and light-headed, my eyes grew weak and watery, my head ached like it would burst, and I became generally run down. A few home remedies with no results, and consulted a well known physician and an oculist--but they gave me no relief. The oculist said nothing could be done for my eyes--and I became very much alarmed and went direct to Drs. Shores & Shores, the experts. The doctors knew at once what the trouble was, pronouncing it Catarrh of the Stomach, and informed me that the eyes were affected from Catarrh.

MRS. C. J. PENNINGTON. 23 S. Fourth East St., Salt Lake City. Mrs. Pennington says: "I have been a great sufferer from Catarrhal troubles for about 15 years. Among other symptoms, I noticed I was gradually losing my strength and health. My head and nose stopped up continually. I had to hawk and spit to clear my throat, and had incessant headache. 'I have been under Drs. Shores' treatment now just one month and it has been a month of pleasure to me. Already I feel much better; my head and nose are quite clear, the nose does not bleed now like it used to, and I am very much pleased with the results so far, and am glad to endorse Drs. Shores' treatment."

"I went under their treatment--and for the trifling expense of \$5 a month--and today I am sound and well in every way, and my eyes as good as they ever were. I am surprised and delighted with Dr. Shores' splendid skill, and gladly endorse them to others."

J. E. STEVENS. "MRS. C. J. PENNINGTON."

## \$5.00 A MONTH BY MAIL--\$5.00

To all beginning TREATMENT during August this special offer is made for your benefit, to prove to you that Catarrh and chronic diseases can be cured permanently. Write today for symptom blanks if you cannot call and take advantage of this special offer. All beginning TREATMENT during August with Drs. Shores will be treated until cured for \$5.00 a month, medicine free. Consultation and advice are free to all, in person or by letter.

## ALL DISEASES.

Drs. Shores & Shores not only cure Catarrh and Stomach Troubles, but they cure Nervous Diseases, Kidney Diseases, Bladder Troubles, Heart Disease, Diseases of the Stomach and Bowels, Piles, Pictorial and Rectal Diseases, Female Complaints, Rickets, Spinal Troubles, Skin Diseases, Deafness, Asthma, Bronchial and Lung Troubles, Consumption in the First Stages, Ovarian Diseases, Gout (or big neck), La Grippe, Lost Manhood, etc.; Blood Diseases, Private Diseases, Scrofula, all forms of Nervous and Chronic Diseases that are Curable.

## Drs. Shores & Shores, EXPERT SPECIALISTS.
